

TOTAL CONVERSION CHART Foundations & More

Included in this booklet are a variety of tools to educate and support you, your clients and consultants to find the perfect foundation match

1- "THE PROCESS"

- training that includes 3 questions to ask; selecting the best options for your client; how to stripe-test; and a "Where to Start Chart" with choices from international makeup artists Robert Jones and Lori Hogg.

Where to Start Chart	COOL PINK	WARM YELLOW & NEUTRALS	WARM OLIVE	GOLDEN ORANGE BRONZE	WARM BROWN BRONZE
IVORY	Ivory C 100 Ivory C 110 Ivory N 140 Ivory N 160	Ivory W 120 Ivory W 130 Ivory N 140 Ivory N 150 Ivory N 160	Ivory W 120 Ivory W 130 Ivory W 150		
BEIGE	Beige C 110 Beige C 120 Beige C 130 Beige C 140 Beige C 170 Beige C 220	Beige C 130 Beige C 150 Beige N 190 Beige N 200 Beige N 210	Beige W 100 Beige C 130 Beige W 160 Beige W 180 Beige C 190 Beige C 200 Beige C 210		
BRONZE	Bronze C 160 Bronze C 170 Bronze C 180	Bronze W 100 Bronze W 110 (is semi-neutral) Bronze W 120 Bronze W 130 Bronze W 140 Bronze W 150		Bronze W 140 Bronze W 150	Bronze C 170 Bronze C 180

This page is a compilation of choices suggested by international makeup artists Robert Jones and Lori Hogg

2 - "FACE-TO-FACE MATCHING"

- cards that you can print, cut, and use at all appointments. The card is the same size as the Profile Card and can be easily stapled to it and filed. Use it at all your face-to-face appointments to make foundation matching so much easier!

FACE-TO-FACE 3D MATCHING

#1 Tip—start with her undertone
Ask these 3 questions and circle the matching undertone column in the chart
do you burn often and it's hard to keep a tan?
If yes, recommend "cool/pink" column
do you burn and then tan and can keep a tan?
If yes, recommend "warm yellow/neutral" column
do you tan very easily and never burn?
If yes, recommend "warm/olive" column

#2 Tip—choose the correct "box" & choose the 3 shades
• decide if your client is an ivory, beige or bronze, and find the matching "box" of shades
• choose the 3 shades in the "box" that you'll stripe on your client:
Ex: 1st, decide if your client would be a "light beige" or "medium" or "dark beige". For "light beige", start at the TOP of that box and stripe the top 3 shades. For "medium beige", stripe the middle 3 shades. If it's a "dark beige", stripe the bottom 3 shade choices. TIP! It's easier not to skip around inside the box; apply in sequence

#3 Tip—use the same "left side" process to stripe every client
Stripe on the client's LEFT half of her face every time. It will be YOUR "right-facing" side. Ask the client to turn toward the light so you can see clearly, and apply 3 stripes with sponge/tip: #1 first shade, apply nearer to mouth, #2 second shade, apply in middle, #3 third shade apply nearer to her ear. TIP! Mark the three shades inside the box above, with #1, #2 and #3, as each is applied, to stay organized.

• Don't apply too much product, but put enough that the product sits on top of face without immediately absorbing all of it
• Stripe each shade: touch the cheek, pull straight down to below the jaw
• Allow stripes to rest for 15-30 seconds or so (but don't let them get "dry"). You will be able to see the colors warm up and bloom
• Blend in gently with clean sponge/tip, keeping each stripe separate. The correct shade should "disappear" into the client's skin
• Let client do one half of her face with correct shade, before deciding
• Final critique... does this shade look good, but somehow it looks a little ashy, or chalky, or isn't warm enough? Then try one shade deeper on other half of face; now decide her perfect shade match.

Perfect Match

use this sheet when a client is face to face with you

Where to Start Chart	COOL PINK	WARM YELLOW & NEUTRALS	WARM OLIVE	GOLDEN ORANGE	WARM BROWN
IVORY	Ivory C 100 Ivory C 110 Ivory N 140 Ivory N 160	Ivory W 120 Ivory W 130 Ivory N 140 Ivory N 150 Ivory N 160	Ivory W 120 Ivory W 130 Ivory W 150

This page is a compilation of suggestions from international makeup artists Robert Jones and Lori Hogg

3 - "FREE SAMPLES: The Perfect Match!"

- Here's a card to mail to customers with 3-4 foundation samples. The bottom photo is an example of what your client would be getting in the mail from you. Ask your client "the 3 questions," and then use the "Where to Start Chart" to decide which samples to send her. If she already has a perfect MK foundation shade in a different formula, check the Total Conversion Chart to feel more confident about your sample choices.

Help the client have more fun and confidence by writing down the shades names on the card and the matching line number on each sample. Once she receives your packet, call her and walk her through the process by Facetime, Zoom, FB Messenger video, or some other type of face-to-face video (if possible). Note: use this system only when you cannot meet a client face to face!

FREE Samples The Perfect Match! Mary Kay's NEW 3D TimeWise Liquid Foundation Matte

HOW TO DO IT! Turn toward a door or window, and face the light so your face is bright. Using a mirror, apply a stripe with each shade, starting at cheekbone and pull down to below the jawline: #1 first shade, apply nearer to mouth, #2 second shade, apply in middle, #3 third shade apply nearer to ear (see photo below)

1st—Don't apply too much product, but put enough that the product sits on top of face without immediately absorbing all of it
2nd—Allow stripes to rest for 15-30 seconds or so (but don't let them get "dry"). You will be able to see the colors warm up and bloom.
3rd—NOW BLEND in gently but keep each stripe separate.
4th—The correct shade should "disappear" into your skin
5th—Now do one half of your face with correct shade, before deciding

Final critique... does this shade look good, but somehow it looks a little ashy, or chalky, or isn't warm enough? Then try one shade deeper on other half of face; now decide perfect shade match.

Do your stripes in order by the name below	looks good	too pale	too dark	too yellow	yes

4 - "TOTAL CONVERSION CHART"

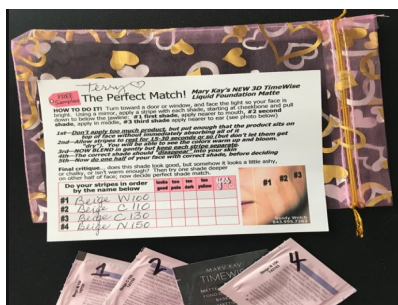

- When you know a client's current Mary Kay foundation shade, you can easily find shades that will work in the 3D Foundations, other foundations, pressed powders, concealers, etc. This chart has been updated to include the TW 3D foundations, with all options given by Mary Kay InTouch, international makeup artist Robert Jones and international makeup artist Lori Hogg.

5 - "OLDER PRODUCTS CONVERSION CHART"

This chart contains names of very old foundations and products, and it should help you find a new match for someone who loved a former foundation (that you may not have heard of before). This chart has been updated to include all options given by Mary Kay InTouch, plus international makeup artists Robert Jones and Lori Hogg.

TOTAL CONVERSION CHART Foundations & More

SSD Sandy Welch 05.2019

THE PROCESS! HOW TO START FROM SCRATCH TO FIND THE PERFECT MATCH

Mary Kay TimeWise 3D Foundations

Tip! When you see a client face to face, simply start from scratch to find the perfect match by stripe-testing her. *(Her former shade could have been slightly too dark or too light, so you're not trying to match her former shade; rather, you're trying to find a perfect new shade!)*

#1 Tip—start with her undertone

Ask these 3 questions and circle the matching undertone column in the chart

do you burn often and it's hard to keep a tan? If yes, recommend "cool/pink" column

do you burn and then tan and can keep a tan? If yes, recommend "neutral/yellow" column

do you tan very easily and never burn? If yes, recommend "warm/olive" column

#2 Tip—choose the correct "box" & choose the 3 shades

decide if your client is an ivory, beige or bronze, and circle the matching "row" of shades choose the 3 shades in the "box" that you'll stripe on your client:

Example: 1st, if your client is a beige, then decide if your client would be a "light beige" or "medium" or "dark beige." For "light beige," start at the TOP of that box and stripe the top 3 shades. (do the same for ivory and bronze).

For "medium beige," stripe the middle 3 shades.

If she's a "dark beige," stripe the bottom 3 shade choices.

TIP! It's easier not to skip around inside the box; apply in sequence

#3 Tip—use the same "left side" process to stripe every client

Stripe on the client's LEFT half of her face every time. *It will be YOUR "right-facing" side.* Ask the client to turn toward the light so you can see clearly, and apply 3 stripes with clean spongetips: #1 first shade, apply nearer to mouth; #2 second shade, apply in middle; #3 third shade, apply nearer to her ear. **TIP! Mark the three shades in the box with #1, #2 and #3, as each is applied, to stay organized.**

- **Don't apply too much product, but put enough that the product sits on top of face without immediately absorbing all of it**
- **Stripe each shade: touch the cheek, pull straight down to below the jaw**
- **Allow stripes to rest for 15-30 seconds or so (but don't let them get "dry"). You will be able to see the colors warm up and bloom**
- **Blend in gently with clean spongetip, keeping each stripe separate**
- **The correct shade should "disappear" into the client's skin**
- **Let client do the RIGHT half of her face with correct shade, before deciding**
- **Final critique... does this shade look good, but somehow it looks a little ashy, or chalky, or isn't warm enough? Then try one shade deeper on LEFT half of face; now decide her perfect shade match.**

Where to Start Chart	COOL PINK	WARM YELLOW & NEUTRALS	WARM OLIVE	GOLDEN ORANGE BRONZE	WARM BROWN BRONZE
